To whom it may concern

I have known Madame Pelletier since moving to France in June 2002, her expertise has proved invaluable to us to set up our bank accounts, arranging insurances and helping to set up our business, attending meetings with the notaire, accountant and the necessary government departments.

All of the work, including translation, that Madame Pelletier has carried out for us, has been carried out at all times in a very professional manner. Madame Pelletier has always maintained professional confidentiality and has always been punctual, which is important to me.

With all of the above in mind I would highly recommend the services of Madame Pelletier to anyone looking for a professional service.
