

Limousin Centre France Ltd

To whom it may concern

Ms Pascale Pelletier has worked with **Limousin Centre France Ltd** as a translator and interpreter for the last four years. In this time we have been fully satisfied with her work.

Pascale has always produced technical translations of the highest quality dealing with various real estate documents, including sale agreements plus contracts. These legally binding documents require accuracy and clarity. In addition, she supplies us with descriptions covering a diverse range of properties, necessitating an in-depth knowledge of both construction and terminology. These translations have always been produced on time, even when required at short notice.

We have also employed Pascale as an in interpreter for numerous sales to British clients. As such, she is called upon to perform simultaneous interpreting. The excellent quality of her work is largely due to her thorough knowledge of French and British languages, cultures and business practices. We would like to add that her highly developed interpersonal skills are appreciated both by our customers and ourselves.

Throughout our collaboration with Pascale, we have always been impressed with her thoroughness, reliability and commitment. Her availability and friendliness have also combined to make this collaboration solid and rewarding and we intend to develop it in the future.
